

GROUND ED SUMMIT

2 DAYS OF SOLUTIONS FOR A REGENERATIVE PLANET

The Grounded Summit is one of the most timely and vital events of its era—an inspiring gathering that convenes some of the most important and influential leaders, activists, scientists and climate solution investors working on the front lines of the climate crisis.

Grounded was established in 2018 to identify and accelerate scalable solutions to the climate crisis. Founded by emerging environmental leader Julia Jackson of Jackson Family Wines, Grounded identifies, connects, and advances climate solutions through an annual summit, grants, and partnerships. Our goal is to collaboratively shift the response to climate change and to scale proven solutions.

Grounded Summit 2020 takes place March 19-20 in the majestic Sonoma wine country, building off of the powerful and inspiring inaugural award-winning 2019 event. The Grounded audience is comprised of thought leaders, social influencers, international activists, government officials, and corporate executives who all share one common attribute: a burning desire to protect the planet.

Grounded is seeking strategic partners who believe in our solutions-oriented mission and to foster connections with a passionate community of change agents. **Partnership features of the Grounded Summit experience include:**

- Engagement with policy makers and civic leaders
- Promotion of actionable solutions and products
- Alignment with diverse audiences and global activists
- Unique hospitality featuring top culinary talent
- Authentic brand integration and engagement
- Executive participation, qualified for maximum credibility
- Social media action with powerful high-quality content
- Opportunities for advisory board participation

All in a beautiful, immersive setting that reminds everyone just why we need to work hard to protect our natural environment.

Thank you for considering our invitation to be part of the Grounded movement.
